Electronic Invoicing Module (EIM) – Ver. 1.2.3

With this revision the following changes were made:

1. Labor Invoice – Normal Invoice – Only timecard items where the total hours are greater than zero will be processed. Total hours: ST + OT + DT.

2. Labor Invoice – Credit Invoice – Only timecard items where the total hours are less than zero will be processed. Invoice total will be a negative number per ConocoPhillips instructions.

3. Bug has been fixed where some items were skipped if more than one item for a day was in the TCLIST table and the Class Code had Rate Changes by Date detail.
